## February 2026 President's Message

The annual LBMTC Safety Inspection was held on January 24, 2026, and had a great turnout of cars and members. Charlie Plessner and Lana Stephens get the award for driving and trailering a Model T, respectively, the longest distance to the safety inspection. Jeff Hood and Jim Clift provided emergency roadside assistance to Richard Holt which we will hear about at the February meeting. I hope that Richard saved the worn-out parts for Show & Tell. Tom Leroux and Joe Brun grilled hot dogs for the crew who worked up an appetite. When Tom announced that lunch was ready, I'm pretty sure that I heard wrenches and screwdrivers dropping. Thanks to Tom Leroux for hosting the Safety Inspection!

Our program for February will feature staff from the Red Cross who will be discussing Emergency Preparedness.

**Carl Laski**

LBMTTC President
