

October 2026 President's Message

LBMTTC displayed 6 Model T's at the California Heights Neighborhood Block Party on September 19, 2026, which is a beautiful tract of homes west of Long Beach Airport. Alex Kennedy, Chris Craig, David Overfield, Jeff Hood, Leonard Glick, Tim O'Gorman, and I had many visitors stop by to look at the cars and answer questions. I had a father and son ask where's the gas tank. I removed the seat to show them the round gas tank. I then asked the young teenage boy where's the gas gauge was on the dashboard. After a few seconds letting him search the dashboard, I showed them the wood gas gauge. Around 12:15pm, several of us who only had some toast for breakfast were getting very hungry. Shortly after, two people from the neighborhood association arrived with large sandwiches on hoagie rolls. As a fisherman would say, there was a wide-open bite. It was tempting to lie down on the back of David Overfield's truck for a short nap.

I'm pleased to announce that David Overfield has volunteered to become the next Editor for the Magneto News starting in January 2027. Thank you, David! I'm looking forward to the tour to Kingman, Arizona on October 16-18, 2026. After picking up the tour kit that John Bowman had prepared, I was amazed at his organization and obvious work to plan this trip. Thank you, John!

The LBMTTC Holiday Banquet is right around the corner! Please complete the form in the Magneto News to select your meal and mail along with a check.

Carl Laski, LBMTTC President
